- Landscaping Products and Supplies

Our organization is backed by skilled and dedicated employees. We are committed to exceeding your expectations and enhancing our tradition of personalized customer service that you'll come to appreciate.

In addition, we continually look ahead to improve our efficiencies and effectively use technological advances, ensuring our products will meet or exceed the industry's strictest certification guidelines as well as applicable industry, state and federal standards and specifications.

Our companies maintain active memberships and involvement in numerous professional and community associations for the advancement of the industry. We proudly promote concrete construction and landscaping, and represent the industry by entering prestigious competitions and supplying award-winning projects.

Each division within the County Materials' family of companies plays a significant role in shaping and contributing towards growing communities throughout the United States. Our products are successfully specified every day by construction professionals for infrastructure and transportation construction, as well as commercial, municipal, industrial, agricultural and residential applications of all sizes.
