Solace

Timeless

Due to the nature of concrete and variables in photography and printing, colors shown may vary from actual hues. Refer to product samples for final color selection.

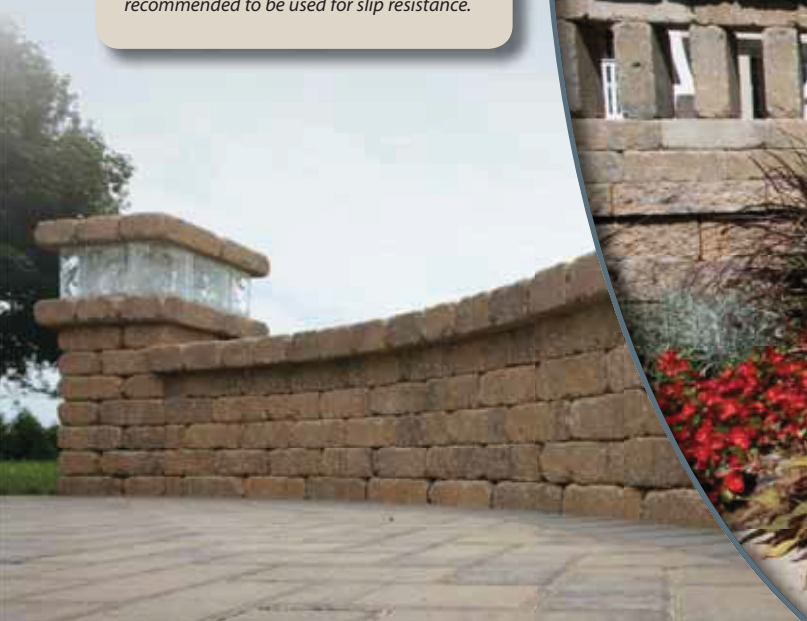

Modular Summit Stone units combine a natural stone appearance with installation efficiency to create remarkable landscaping applications.

Notes:

- It is recommended that Summit Stone structures (i.e. fireplaces, grill enclosures, pillars, mailboxes, steps, etc.) be installed on a concrete base.
- Maximum recommended wall heights for Summit Stone garden walls/seat walls should not exceed 3 feet high.
- Summit Stone units are suitable for use in light pedestrian foot traffic applications. Summit Stone units are not intended for vehicular traffic applications.

Caution: Deicing products may be harmful to concrete surfaces and concrete products, especially when used in excess. Sand is recommended to be used for slip resistance.
